App. Ser. No.: 10/743,246

Atty. Doc. No.: BCS03192

SPECIFICATION

Please amend the specification as follows:

On page 9, please amend paragraph 27 (renumbered as paragraph [0029] for

publication) as follows:

[0029] The processes and methods described above may be implemented as a computer

readable carrier. Program(s) of the computer readable carrier define functions of

embodiments and can be contained on a variety of signal-bearing storage media, which

include, but are not limited to: (i) information permanently stored on non-writable storage

media (e.g., read-only memory devices within a computer such as CD-ROM or DVD-

ROM disks readable by a CD-ROM drive or a DVD drive); or (ii) alterable information

stored on writable storage media (e.g., floppy disks within a diskette drive or hard-disk

drive or read/writable CD or read/writable DVD); or (iii) information conveyed to a

processor by a communications medium, such as through a computer or telephone

network, including wireless communications. The latter embodiment specifically includes

information downloaded from the Internet and other networks. Such signal-bearing media

or computer readable carriers, when carrying computer-readable instructions that direct

functions of the invention, represent embodiments of the invention.
